PROFESSIONAL EXPERIENCE

CONCLO TECHNOLOGIES PVT LTD

Account Executive

Palakkad, Kerala, India

September 2024 – Present

- Managed end-to-end client engagements, translating business bottlenecks into functional requirements, and building proof-of-concept (POC) configurations using Flow Builder, custom objects, and core Security Settings to demonstrate CRM capabilities.
- Conducted discovery workshops, business requirement gathering sessions, and CRM consulting meetings to identify automation opportunities and optimize business processes.
- Delivered Salesforce product demonstrations, solution presentations, and consultation sessions to business owners, CXOs, and operational stakeholders.
- Collaborated with Salesforce developers, consultants, and implementation teams to translate business requirements into scalable CRM solutions.
- Helped organizations streamline customer engagement, sales operations, and service processes through Salesforce-powered digital transformation initiatives.

CONCLO TECHNOLOGIES PVT LTD

Salesforce Developer

Palakkad, Kerala, India

January 2024 – September 2024

- Designed, developed, and deployed scalable Salesforce applications using Lightning Web Components (LWC), Apex, Visualforce, SOQL, and SOSL.
- Automated lead management, enquiry processing, approval workflows, renewal reminders, and duplicate prevention using Record-Triggered Flows and Screen Flows, reducing manual processing effort by approximately 60%.
- Developed reusable Lightning Web Components featuring advanced datatables, search, filtering, inline editing, approval tracking, and role-based access control to enhance user productivity.
- Designed and implemented REST API integrations between Salesforce and external applications, ensuring secure and reliable real-time data synchronization.
- Developed AI-powered CRM solutions using Agentforce and Prompt Builder to automate record summarization, intelligent booking workflows, and contextual CRM interactions.
- Designed and deployed Einstein Bots integrated with Omni-Channel Routing to automate customer support, enquiry handling, live-agent transfers, and case management.
- Developed Salesforce Experience Cloud portals support appointment booking and customer self-service capabilities.
- Built dynamic Visualforce PDF solutions for quotations and sales orders, incorporating GST calculations, pagination, company branding, and amount-to-word conversion.
- Participated in requirement analysis, sandbox development, authoring comprehensive Apex Unit Test Classes to ensure >85% code coverage, user acceptance testing (UAT), and Change Set/CLI deployment activities.
- Improved operational efficiency by automating repetitive CRM processes, significantly enhancing user productivity and reducing manual intervention.

CONCLO TECHNOLOGIES PVT LTD

Salesforce Administrator

Palakkad, Kerala, India

October 2023 – January 2024

- Configured and customized Salesforce Sales Cloud and Service Cloud applications based on business and operational requirements.
- Managed users, roles, profiles, permission sets, sharing rules, and security configurations in accordance with Salesforce security best practices.

- Developed reports and dashboards that provided actionable insights into sales performance, customer service metrics, and operational KPIs.
- Automated workflows, approval processes, validation rules, email notifications, and alerts to streamline business operations.
- Implemented Web-to-Lead and Email-to-Case functionality to automate lead capture and customer support processes.
- Customized page layouts, Lightning Record Pages, custom objects, fields, related lists, and list views to improve usability, efficiency, and user adoption.

LUMINAR TECHNO LAB
Python Full Stack Intern

Kochi, Kerala, India
January 2023 – June 2023

- Developed responsive full-stack web applications using Python, Django, HTML, CSS, JavaScript, and Bootstrap.
- Designed e-commerce applications with CRUD functionality and responsive user interfaces.
- Optimized application performance and enhanced user experience through efficient frontend and backend development.
